**VOLUME III
1969 — 1970**

Again the School year draws to a close but 'Quo Vadis' will serve to keep alive in memory, the many activities and experiences of this important period in each student's life.

We hope all the students of the School will look back on this year as one in which they have found the stimulation of a challenge, the thrill of success, a growing understanding of the needs of other people and a greater ability to laugh at themselves.

To our Graduates, in both the Diploma and Degree programmes, we wish every success as you go forward into, or back to your professional careers. We are sure that we shall be proud to claim you all as alumni or alumnae of this School.

Miss M. B. Spence
Acting Director of the
School of Medical Rehabilitation.
Head of the Physical Therapy Division.

As you read these words, the Graduating Class will be fully pledged Occupational Therapists, but as I write them, the examinations are still ahead of you. It is an alarming thought that what I write at this very busy time of the academic year will go down in some sort of posterity, if only among your own families. Nevertheless, the only important message I can give you is very short and very simple.

I hope these years at the School of Medical Rehabilitation, have brought other benefits, as well as attaining professional qualification, and that this Year Book will serve as a reminder that there were many lighter moments.

Best Wishes from myself and my Staff go with you for the future.

Mr. D. G. Connor
Head of the Occupational Therapy Division.

It matters not how straight the gate,
How charged with punishments the scroll,
I am the master of my fate,

"THIS IS YOUR YEARBOOK"

Joyce
Traub

Co-Editors

It seems fitting that the last page of the book be reserved for the yearbook editors' comments. The book is completed, we hope you enjoy it, if you don't, then help us make next years' better.

Joyce Traub and myself are the co-editors for this '69-'70 book but before us were others whose efforts we acknowledge - Glenys Edwards and Marilyn Gille and their staff. We all know the ups and downs that came to pass this year. However, there was nothing accomplished well that did not face some obstacle - big or small. Next year's book will be as successful as YOU make it to be.

We have to admit, a yearbook is not so hard to make, after all, look who your editors are, but it does take time. This book was compiled on our kitchen table during day-long sessions following our April exams and during our 1st internship. We enjoyed every minute, although there never seemed to be enough. The effort was our best we could give in our limited time. A special note of thanks to Lois Moncer who donated her time and talents in April also, and to Jean Hayward for managing the photography. We give you "Quo Vadis".
